The Modular Hydrogen Hub

Infrastructure that moves
with your needs

Modular & Scallable

Adapt to any volume

Maximum Payload, Minimum Tare Weight

Lightweight composite technology

Globally Proven Track Record

Over a decade of field operations in
hydrogen and natural gas worldwide
within Hexagon Group

Intermodal Flexibility

Seamless transfer between truck, ship and rail

Low Total Cost of Ownership

Higher efficiency per trip and reduced handling

Full International Compliance

Designed and certified to the highest global
standards (UN TPED, ADR, RID)

One Container Multiple Applications

**Bulk Hydrogen
Distribution to
Industry**

**Mobile Storage for
Energy in Remote &
Off-Grid Locations**

**Strategic Buffer
Storage**

**Direct Mobile
Refueling for Fleets,
Ports, Construction**
